ASSIGNMENT-2
B.A./B.Com./B.Sc./BHM/BBA/BBM DEGREE
EXAMINATION, JUNE/JULY - 2020
Second Year
ENGLISH (Paper - II) (Part - I)
Maximum : 30 MARKS
Answer ALL Questions

Q1) Read the following passage and summarize it.

The sea turtles, especially the leatherbacks, are undoubtedly one of the most amazing creatures. They roam the warm seas of the world throughout their life and come ashore only to lay eggs. Malaysia with its long sandy shore lines has been destined as one of their breeding grounds. Unfortunately, the number of leather back turtles landing on the beaches has been declining over the years. The belief that the declining landings of turtles in Malaysia is the result of increasing landings in other parts of the world is a fallacy. This is because the scenario is the same in other countries known to have been visited by the turtles. What has caused the species to dwindle at such a rapid rate? There are many reasons but an obvious one is none other than man's greed. As we know, turtles are killed for their meat. Turtle soup is a favourite dish among the Asains. Their shells have become coveted item for jewellery and decorations. Their eggs which are meant to be hatched into young turtles, are instead harvested and eaten. Pollution of the sea has also reduced the number of turtles. Many are choked to death by plastic bags and mistaken for jelly fish. Sincere efforts are being taken to check the decline. In Malaysia, it is heartening to note that concrete steps have been taken to protect the turtles that come ashore to lay eggs. The indiscriminate collection of turtle eggs on the beach is no more allowed. Turtle sanctuaries have been set up. Let us hope that it is not too late to save these fascinating creatures from becoming extinct.
