ENGLISH (Paper – I)

Time : 3 Hours

Maximum Marks : 70

Section-A

Analysis Skills

- Q1)** a) Read the following passage and answer the questions that follow. [5 × 1 = 5]
It is the mad usage for speed that is responsible for many motor accidents. Only last year I witnessed what might have been a fatal accident on the Kashmir road. I was motoring down from Srinagar and came upon the wreckage of two cars on the road. The smash had been caused by a car coming down, which swept round a sharp corner at forty miles an hour and crashed into a car coming up. Thankfully no one was killed but several were badly injured.
- Why do many accidents occur?
 - Where did the writer witness the accident?
 - What caused the accident?
 - What was the effect of the accident?
 - Give the antonym for, 'sharp'?
- b) Read the following passage and answer by choosing the right answer. [5 × 1 = 5]
Of course, I am honest and a hard worker. In the very second week, I had made more sales than the previous salesman had made during any week. Maybe because it was the week before diwali when more saris are bought. Or it could have been due to my salesmanship. Anyway I had good reason to be satisfied with the way things were going. That was how it was until this morning. I was beginning to have rosy dreams of getting married and settling down in mumbai, which is a good place for a refugee from punjab.
